Just two and a half hours away from Athens and 50 minutes from Kalamata, Euphoria Retreat spa facility is located in the center of the Peloponnese, in the UNESCO World Heritage site, the Byzantine town of Mystras, offering a spectacular mountain and citrus plantation view.

The design of the Spa is also based on Byzantine architecture and symbols, while the decorations create a relaxing Zen atmosphere.

The gardens of Euphoria Retreat pay a tribute to the energies of the five elements promoting its clients' wellness. A private forest spreads over 78,000 sqm outside the center, which is enough space for spa enthusiasts to bike, take a walk or practice sports of any kind. Also, Gythion beach is half an hour drive away from Euphoria.

The philosophy of this enchanting spa facility is centered around emotional, physical and spiritual balance. To achieve the goal of balance, each guest benefits a customized therapy and a personal instructor.

Euphoria Retreat will offer the ultimate spa experience, featuring a unique combination of treatments promoting beauty and health by using natural Ancient Greek and Chinese habits and remedies. As a plus, the 25 metre hot and cold Waterwell foot-baths is the ideal treatment for poor blood circulation and injury convalescence.
